

APPLICATIONS FOR PROFORM ROLL GOODS MATTING

Let us build a solution that has been engineered to meet your needs. **Quality, correctly fitted and installed matting is one of the first impressions made on customers, guests, tenants and associates.** Carefully coordinated entrance mat, logo floor mats, rubber anti-slip flooring and barrier carpet runner and door mat products, create a practical, effective cost conscious solution, preventing the ingress of dirt, moisture and debris onto the main building floor areas, thus allowing for a safe trip and slip free passage for all customers visitors and employees, while keeping your property cleaner and reducing the use and cost of potentially harmful cleaning products and maintenance labor.

Lobbies

From simple stock squares and oblongs to special shapes, sizes, edging and custom finishing details, allMATS will assist you or your design team in implementing the right solution for your lobby. Your lobby is the first impression made on clients, guests, employees, tenants, & customers. allMATS is here to help...every step of the way!

Outside

allMATS has an array of solutions that will work for a partially covered or completely outside area even in the harshest weather. Rubber, vinyl, natural, & synthetic matting matched to meet your unique needs and conditions. Custom logos, addresses and colors too...we'll make it perfect just for you!

Reception Desk

From stock runners to matting cut on site to fit your reception desk or security area, allMATS can help you implement a solution that meets your design and budgetary necessities.

Recessed Well

allMATS can coordinate with a professional to install matting in recessed wells or provide you with the material and know-how to do-it-yourself. We have numerous mat styles of differing heights and can fill recessed wells with cement, patch, or cement board to bring the well to the appropriate depth. Choices are an extensive set of possibilities; roll goods, carpet tiles, natural coco, carpet track, and solid rubber...and colors to match any façade or design need.

Vestibules

allMATS recommends wall-to-wall installations in vestibules to create safe and attractive entrances. Our recommended products are roll goods, carpet tiles, carpet track, or natural coco matting. Installations can be glue down or loose lay depending on your specific circumstances and traffic needs.
