

Solid Step Cote for Hotel Rooms & Lobbies

Recommended Formulation: 01, 02, 03 or 04

The Hospitality industry is a prime target for slip and fall accidents. Hotels feature so many of the environments and surfaces that often become wet, oily and slippery, posing a constant hazard to both guests and staff. Because of the huge liabilities associated with insurance claims, lawsuits and settlements relating to slip and fall accidents in the hospitality industry, creating slip resistant flooring surfaces is of the utmost importance in running a safe, responsible and profitable business.

Every Surface, One Non Slip Coating Solution

The average hotel or motel features kitchens and food preparation facilities, dining facilities, lobbies, terraces, verandas, walkways, pool decks, communal bathrooms and showers, pool decks, tubs and shower stalls, all of which present significant slip and fall hazards for staff and guests. These surfaces, when wet and slippery, make many hotels unsafe and vulnerable to the massive liabilities associated with slip and fall accidents. With four **Solid Step Cote** formulas to choose from, there is a solution for every flooring surface and every indoor and outdoor environment in your hotel.

Furthermore, **Solid Step Cote** is unquestionably the premier non slip coating for hotel tubs and showers because of its ability to bond effectively to ALL tub and shower surfaces, a lack of fumes or odors, quick dry times, outstanding durability and the fact it will not discolor, crack or peel over time.

Solid Step Cote is the only viable non slip bathtub, shower and floor product that combines all these benefits in a single solution:

- **GREEN/Non-Toxic**
- **A Single Component Solution (no mixing required)**
