

SOUTHAMPTON

Specification Sheet

PERIMETER EDGING OPTIONS

- Application** – Indoor and outdoor.
- Construction** – “Never-Fray” needlepunch construction eliminates the need for edging. Matting can be cut to any size or shape transitioning seamlessly from one to the next.
- Texture** – Non-directional berber.
- Face Fiber** – 100% Solution dyed UV stabilized polypropylene for maximum stain and fade resistance.
- Face Weight** – 52 oz/sq yd is more than twice the weight of the average rental runner resulting in more water retention, durability, crush resistance, and aggressive soil removal.
- Total Weight** – .6 lb per square foot.
- Total Height** – (3/8) inches (variable).
- Backing** – Modified rubber. Non yellowing and non staining. Easily rolls and unrolls flat while reducing mat “creeping” on hard floors. Velcro available for use on carpet.
- Sizing** – Up to 13'-2" x 80' in a single piece enables us to manufacture any size or shape in the largest of lobbies.
- Flammability** – Passed (DOC-FF-1-70) Pill test.
- Water Retention** – (.8) gallons per square yard. Outperforms matting whose claim to fame is water retention.
- 3-Year Warranty** – 100% in first year, 50% in second year, 25% in third year.
- Installation** – Easy to self-install with a mat knife. Optional on site installation by a PROFORM certified master installer is available.
- Storage Cores** – Optional Heavy Duty fiber storage cores insure that matting is ready to lay flat without curling. (Always store carpet side out.)
- Edging Options** – Safety Edging: A 1.5" vinyl reducer which is applied with glue and stitched, with mitered corners and reinforced with vinyl corner supports.
- Uni-Flow: Our frayless construction allows the elimination of edging, creating the elegant appearance of an area rug and a seamless transition from one mat to the next. (Most economical, attractive and safe).
- Heat bevel: Edge is melted at a 45e angle.
- Cleaning** – Regular vacuuming, carpet extraction or bonnet cleaning as needed.

LEED: Possible LEED-NC credits: MR Credit 4 (1-2 points), IEQ Credit 4.1 (1 point)
Recycled Content: 15% post-consumer

Because you never get a second chance to make a first impression.
